- Sealed up to IP67 •
- Lockable catches •
- Range of options •

Instrument cases

These attractive and versatile cases are produced in twelve standard sizes. Aluminium effect in appearance and manufactured from tough self-coloured ABS plastic, they retain their good looks for the life of the case. Other colours can be made to order.

These cases are weatherproof and fitted with lockable catches as standard. Blank mounting panels are available from stock, complete with QED's unique fixing system, which allows for quick assembly. Custom panels can also be supplied pre-machined and printed to your specification.

QED offer a full design and manufacture solution for the supply of shaped foam inserts either from detailed specifications, or the loan of the items to be packed. Alternatively "Pick & Pluck" foam sets are available, which can be easily shaped to suit individual needs.

Standard Sizes

Model Number	Panel Size (mm)	Dimensions (In Millimetres)						
		A	B	C	D	E	F	G
IC-285182-A	284 x 182	185	115	70	210	312	110	50
IC-285-182-B		225	155	70	210	312	150	50
IC-386274-A	386 x 274	185	115	70	300	412	110	50
IC-386274-B		225	155	70	300	412	150	50
IC-437322-A	437 x 322	185	115	70	349	464	110	50
IC-437322-B		225	155	70	349	464	150	50
IC-488386-A	488 x 386	185	115	70	413	515	110	50
